

## Press Release

Date: July 27, 2006

Calgary, Alberta:

Quests End is pleased to announce the acquisition of new sound equipment which will further more improve the sound quality that we offer. Although Quests End is already known for providing a high quality & professional sound equipment solution, Quests End has again set the standard for Mobile DJ's in Canada to a level never seen before!

Quests End has purchased the following equipment:

- A complete set of [JBL SRX715 & SRX718S Concert Series Speakers](#)
  - For over a decade, JBL SR and SRX series speakers have represented the best performance, highest quality and most advanced driver technology available to portable PA users. The SRX700 series continues that tradition and moves the bar even higher.
- Two [QSC RMX 5050 Power Amplifier](#)
  - QSC's RMX 5050 power amplifier represents the state-of-the-art in professional quality performance. Perfectly suited for a wide range of sound reinforcement applications including professional touring, performing musicians, and mobile entertainers, the RMX 5050 is optimized to deliver high levels of sustained power, extraordinary audio performance and road-proven reliability.
- Two [Furman Sound PM-Pro Series II Power Conditioners](#)
  - The most widely recognized and trusted name in AC power conditioning is proud to introduce the PL-PRO D II power conditioner featuring Furman's revolutionary SMP+ technology. Together; these technologies comprise what is, without question, the world's most advanced and comprehensive transient voltage surge suppressor.
- One [dbx DriveRack PA](#)
  - The DriveRack® PA continues the legacy of DriveRack® series, which has been created by the company that has been redefining the standard of signal processing for more than 30 years. The DriveRack® PA was designed with the purpose and vision of providing state-of-the-art signal processing, while utilizing a simple and intuitive user interface.
- One [Stanton RM.406 Mixer](#)
  - The RM.406 is the choice for club and mobile DJs who want it all. This 4-channel, rackmount-style mixer has all the essentials (Superior Sound Technology for pristine audio quality, diffused LEDs and lighted controls)—but goes even further by adding an FX Loop, Booth and Subwoofer outputs, and a total of three Microphone inputs. Whether mixing with turntables, CD players or DVD, the RM.406 is ready for anything.

Quests End (QE) is a Professional Mobile Disc Jockey company located in Calgary, Alberta. QE has been in business since 1987 and operating throughout Alberta, QE is a proud member of the CDJA, CODJA, & the Southern Alberta Better Business Bureau.

QE operates with the highest quality sound and lighting equipment available to the industry and is constantly striving to improve on its equipment and service standards. QE's standard DJ rig is capable of a minimum 4400W using four speakers with separate amplifiers for true concert quality sound, and when setup with the lightshow, the entire setup becomes a mobile nightclub. See the Quests End website for more detailed information about the equipment used by the company for its performances.

**Quests End's mission statement is:**

"To offer our customers the highest quality professional sound and lighting equipment, coupled with exceptional professional service and attention to detail".
